HAZARDOUS & SOLID WASTE
PROGRAMS BRANCH

Greetings,

On Monday, November 01, 1999, Hewlett Packard Inc. started a realignment into two (2) companies HP and Agilent Technologies, operating as separate companies. The actual split into two (2) legally independent companies is expected to occur in third quarter, 2000.

Historically, Hewlett Packard has been conditionally exempt or a small quantity generator of Hazardous Waste in the above referenced location. We are now providing notification that will allow the separation of these regulated waste activities based upon the two companies waste streams.

We are starting the process by providing notification of regulated waste activities for Agilent Technologies. In some cases this represents a new physical location and in other cases this means a split of the existing facilities into two operations. The attached EPA Form(s) 8700-12 is to facilitate these changes. Our next step is to provide the change information for Hewlett Packard Inc., which will follow these actions.

Please let me know if you may have any questions or concerns with this information or the notification of regulated waste activity form(s) information.

Sincerely,

Ms. Sally Glunt
EHS Manager
Agilent Technologies
